

EPLF® - EUROPEAN PRODUCERS OF LAMINATE FLOORING ASSOCIATION E.V.

Total Sales 2025

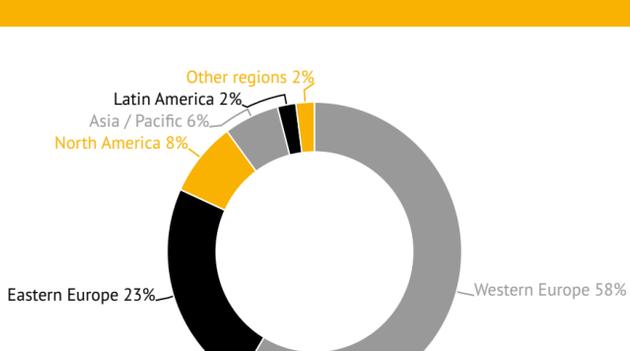

EPLF® publishes annual statistics on the total sales of its members for the previous year. The data reported by ordinary members (producers) is collected on a quarterly basis and summed up at the end of the year. These figures relate solely to their European production. The association makes public only the information below, as all other data is confidential and reserved for members.

2007 - 2025 EPLF Members Sales (in Mio m²)

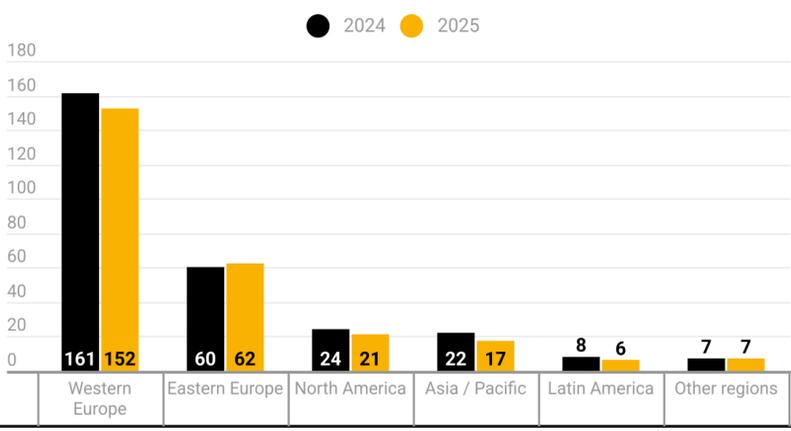

The EPLF total sales for 2025 amount to **263,375,503 m²** (-6.5% compared to 2024). The decline reflects the continued slowdown in construction and consumer spending, yet laminate flooring remains a competitive and resilient choice due to its durability, affordability, and strong value-for-money proposition.

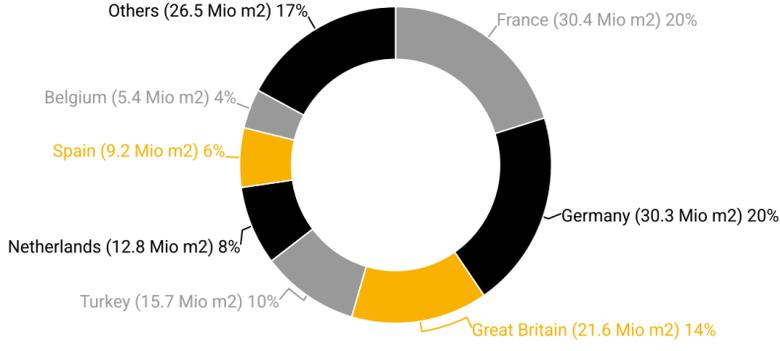

2025 EPLF Members Worldwide Sales (in Mio m²)

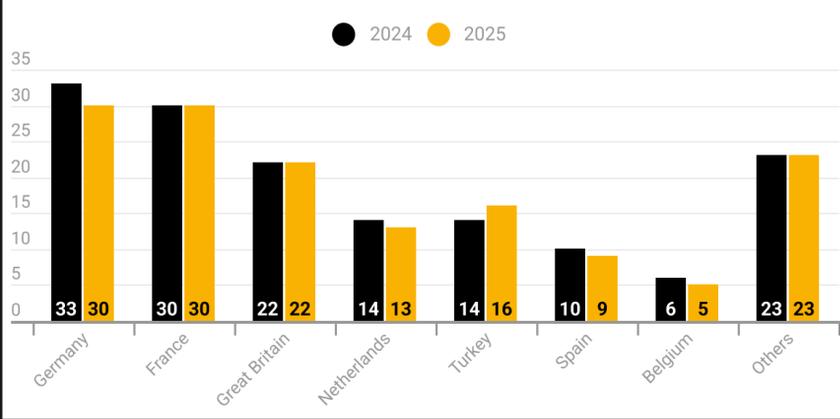

- 2025 sales in Western Europe: 151,806,094 m² (-5.6% compared to 2024)
